Community Planning Advisory Council Meetings for the Cordova, Cosumnes, Delta, Southeast and Vineyard Communities

Proposed General Plan Amendments Related to the Capital Southeast Connector Project

Background. The Capital Southeast Connector project (Connector) is a proposal to build a 35-mile long multi-modal transportation facility that will extend from the I-5/Hood-Franklin Road interchange, northeast to Highway 50 near El Dorado Hills. On May 22, 2012 the Sacramento County Board of Supervisors adopted a resolution which supports and acknowledges the Connector’s general alignment in the unincorporated county, as approved by the Capital Southeast Connector Joint Powers Authority (JPA). At the same time the Board initiated a process to amend the County General Plan to support the Connector Project.

Project Summary. The General Plan Amendment related to the Capital Southeast Connector will include amending the Circulation Element to define the function and components of the Connector, and amending the Circulation Element Transportation Plan to show the Connector’s general alignment. Key project elements to be identified as part of the General Plan amendment include:

- Right-of-way widths and number of lanes for each project segment within the jurisdiction
- Roadway designations for each segment (such as “expressway” or “thoroughfare”)
- Acceptable levels of service for the continued operation of the project
- The identification of points of access and potential future interchanges

Process. As a first step toward processing the General Plan amendments the County is holding a public workshop hearing at each of the regular CPAC meetings for the Cosumnes, Delta, Southeast and Vineyard communities. At each of these meetings County representatives will present information on the proposed amendments and will solicit comments from the CPAC members and the public. The presentation will be the same at each meeting. If you are interested, you need to attend only one meeting.

More Information. Visit the website or call/email the contact below for more information.

Contacts:
- Dean Blank, Principal Civil Engineer at (916) 874-6121 or blankd@saccounty.net
- Mike Winter, Senior Planner at (916) 874-6141 or winterm@saccounty.net

1. This courtesy notice has been distributed to landowners within a 1,000 foot radius of the adopted Connector route and includes parcels that are not in the unincorporated county. Please be aware that the proposed amendments apply only to unincorporated Sacramento County. Interested residents of the Cities of Elk Grove, Rancho Cordova, and Folsom should contact those jurisdictions regarding their separate general plan amendment processes.
